The screw stoomer Nova Scotia brings Liver pool dates to June 3d, a very quick trip. The news is not of special importance. Markets ucchanged, and money ossy. Attention had been called, in Parliament, to the interference of British cruisors with American merchantmen, and the Government had promised to check the eril. The Ningara and Agamemnon, with the Atlantic Telegraph calde, had sailed for the coast of

Congress approaches its close and will containly terminate its session during the present week. The President wants more money; none of it however, for Western interests. The steamer Star of the West arrived at Now

York yesterday, with California dates to the 20th and \$1,500,000 in specie. A summary of her news will be found in our telegraph column. The New York Produce Market, Saturday, was a shade better for wheat, and slightly lower on flour. In our market, with receipts of 40,000 bushels, the demand was very brisk and prices

fully maintained. It was the most active day of the season, and quite like old times. The weather on Saturday was still cold for the season, with wind at North-East, but fortunately

Ex-Governor Wardow, in reply to Bir.

Ex-Governor Banerow claims a large space in to day's paper, in roply to the brief communicaof Mr. Kanoous, which we published some days since. Our readers will judge for themselves, as to the merits of the controversy.

Among other unhappy consequences of the Land Grant, may be reckened the discuption of the ties which once bound ex-Governor Banstow and Mr. Killsouns is such close persoual and political friendship. During the memorable contest before the Supreme Court in 1866, it was Mr. Kildouns who prosided at the meeting in this city, where the authority of the Supreme Court was defied, and ex-Governor Bassiow urged to resist their decree, and to hold by force the office which he had obtained through fraud. And now these sweet friends are parted, and say things about each other, by no means complimentary and senreely credible.

The News thus feankly explains why it deelines our invitation to discuss the Report of the Land Grant Investigating Committee and "compare notes" as to the persons and parties who are to be held responsible for the "corruption" therein revesled:

now discussed in part, and defend the wiedom and propriety of it through and through-is led to believe that we are restrained by prudential considerations. And so we are; but not of the kind intimated by the Soutinel. The News has to do with the fiving party issues of the dayand will not be led into the discussion of dead

We command the discretion of the News. It does well, no doubt, as a party paper, to decline this discussion. The "issues" which are necessarily involved are anything but acceptable to our Democratic contemporaries. But they can scarcely be set down as "dead" ones, so long as the individuals connected with them continue to be recognized and followed as the leaders of the

The News proposes to hold Republicans responsible for their share in these transactions .-All right. We have no objection to urge against this. But we, on our part, propose to charge home upon the Democrats the much larger share of the responsibility which rightly belongs to thom. Thus whom the News talks of ex-Governor Bashrono's derelictions, we shall take leave to romind it that ex-Gov. McAntuca, Comptroller Dannis, Speaker Rull, and fifty odd Democratic Senators and Assemblymen, are all in the same boat, and ontitled to the same meed of praise, or punishment. Are these gentlemen all "dend issues?" Have they been read out of good time yet. -- Hericon Argus. the party, or rebuked for their share in the "corruption?" Has the News discarded these and set up other leaders? No; the News still aware by them all and has not one word to say in cansure of their "corruption." Pray what excuse can the News give to the public for thus glossing over in its political friends the very faults which it condemns in its political opponents ?-Or what confidence can the people repose in a lournal which, affecting great horror and indignation at the Land Grant corruption, openly palliates, or secretly counives at the conduct of those of its party friends who participated in the fruits of that corruption? The plea of "dead issues" will not avail here: nor can the News decline the discussion and comparison to which we have invited it, unless it is willing to be set down as the apologist of the very wrongs which it pre-

tends to denounce.

Shipmonis from Milwaukce. It will be seen from our Commercial Review that the total shipments of wheat and flour from [this port, for the present season, up to noon Saturday, amounced to 187,187 bbls. of flour and 1,277,302 bushels of wheat-or, reducing flour to wheat, an aggregate of 1,894,644 bushels .-This is 858,808 bushels in excess of last year's shipments to the same date. Adding the nate corn, &c., that have been shipped, this season she aggregate of the whole is not far from two million bushels. As the receipts by rail have averaged some 40,000 bushels a day, for som days past, and are not likely to fall off while prioes keep up, we may look for heavy shipments during the next fortnight.

AMOTESE HEAD OFF .- We learn that Dan Brown, P. M. at Janesville, has been removed, and Col. Millian appointed in his stead. The appointment is a good one, but why DAN was removed, we cannot conjecture. He was one of Mr. BUCHAMAN's original appointments, and has stood by Lecompton, through thick and thin. It looks as though certain other Democratic Postmasters were to be victimized in the same way-Perhaps they all had the original taint of Douglasism and are prosurited for that cause.

The Arrival of the Serie Young Americal And Carrain Worthy of the Name.—Yesterday afternoon the brig Young America made her appearance in this port under charge of Capt. Win. Campboll. She was in a sorry plight indeed—all the rig she had, being the stump of a foremast with a maicsail attached, but when it was known that sond tion, through a succession of gales, she attracted numerous visitors, and heaps of encominons were freely poured on her here of a Captain. The brig, as our readers are probably aware, collided in a dense fog in Saginaw Bay, with the schooner Surprise, on the morning of the Soth of May—the latter vessel carrying off all the forward rigging except one shroud, togother with the jib-boom, foremast head, and all above it—all the starboard main rigging and until boom. In this condition she was left to roll about in the latternoon, and the mainmant went overbourd, close to the dook, which had to be cut adrift. The Bible is our Public Schools.—The Board of Education of the city of Watertown have unanimously resolved that the reading of the Bible, and all forms of prayer, be discontinued in the public schools of that city. Some of the temphore, it seems, were wont to call together such of the children as would attend, just previous to school hours, and road a chapter from the Bible, following it by prayer. This practice the Board have prohibited. The State Superintundent, Mr. L. C. Draper,

has addressed a lengthy letter to a member of the Board in reply to a note setting forth the facts, in which he takes strong grounds, in favor of the use of the Bible in public schools, and the propriety of moral and religious, as well as intel-ectual instruction by teachers. MONDAY MORNING, JUNE 14.

Progressing Backwards. Our Democratic Administration and Democratic Congress are in a fair way to distinguish themselves. The Senate, on Friday, passed the Gen-

eral Post Office Appropriation Bill, and by way of giving a striking proof of sagacity and states.

We have not yot the vote by which this measure of Democratic "Retronchment and Reform" was carried. It will, however, no doubt be tound that most of the advocates of increased Postage Retus come precisely from those quarters of the country where the Post Office service the most and yields the least. In several of the bonds in question, and propose to meet the issue before any proper tribunal he may designate, for the country where the Post Office service the most and yields the least. In several of the Northern and Western States, the Post Office even at present rates, is self-sustaining; and in but very few of them is there a considerable deficit. But in not one of the Southern States does the P. O. Department pay its way. People in the promises stated by him as made to Judge Smith. I, of course, can only repeat what Mr. Kilbourn stated to mo. Instead of this, the Madison Committee have consulted their own convenience merely, while the Madison pross have attempted to brow-beat, dictate and domineer in the matter, ud have falsely ascribed to "Milwauken Spless, Arrogance, and Meanness," the opposition which their unauthorized action and discourteous and denunciatory language was so surely valculated to excite. Such certainty is not the way to promote harmony among the Press, or to ensure a

Who Defend the Corruptionists. The Madison Argus, with its customary discogard of truth, says:

The Milwankee Sentinel has been rushing to the defense of such corruptionists as happened to be republicane, but says of Barnyone, "the Republican press, by common consent, have 'dropped' bim."

The Milwaukee Sentinel has not uttered the first word of defence, or apology, for any of the "corruptionists," whether they belonged to the Republican or Democratic parties. We have condemned all elike.

But the Esstinel has shown very palpably that the Madison Argus, Milwaukoo News, and other Democratic prints, which abound in such furious invectives against Ex-Governor Bassword, have not a single word to say in rebuke of Lieut, Governor Modernus, Comptroller Dru-NIS, Speaker HULL, Ex-Governor Bassrow, and the fifty odd Democratic Senators and Assemblymen, who did precisely as Ex-Governor Basitrane did, and are, of course, just as culpable. Sofar from this, both the News and Argus openly and earnestly defended Sonator CHAPPELL, convicted by a vote of twenty-one to five of his brother Senators, of tampering with witnesses before the Investigating Committee, and receiving a gratuity or reward from the La Crosse and Milwaukee R. R. And as to other prominent Democratic leadors, haplicated, like Mr. Chap-PRLC, in the distribution of the Railroad bonds, these papers pursue a similar course. They daily denounce the little handful of Republicans who were caught in bad company, and at the same time cither eponly justify, or sliently pass over, the conduct of that large army of Democrats who shared in the division of the spoils,

Another Printing Steal. The new assessment law expressly provides in the cterks of the Board of Supervisors in that the eterks of the Board of Supervisors in oach county shall cause the necessary blanks to be printed for the different counties. In direct violation of this plain law, Secretary Jones has ordered all these blanks for the whole State ordered all these binars for the whole State printed at Madisen, not under contract, but as a soparatejob, and at a probable cost of some live thousand dollars. This bill he will collect when presented, and it will be paid and the State has remedy. Printing steals are the order of the y at Madison, and it seems as though Jones had the legislature and its laws, determined to

retary of State in the matter, says:

This is containly the coolest proceeding that ever came to our knowledge. The law prescribes that the blanks should be furnished by the counties," says the Secretary, but he bas "deemed it advisable" to disregard the law, If the Secretary of State is above and beyond the Counties. the Secretary of State is above and beyond the Law, let us understand it—for we don't believe in crying for what cannot be helped.

But we imagine when pay day comes the Secretary will sing another time. If H. A. Tenney comives at this swindle, he is not the man we take him for. We do not believe that Mr.

a will over got a cent for the blanks he has had unlawfully printed, as he certainly should not. It is about time that this violation of law by the State officers, on some specious and sim-by the State officers, on some specious and sim-sy pretext, was stopped. How is it to be ex-pected that the people will respect the law, when men occupying high official positions, violate and divregard it openly and wantonly?

"It is instructive to remark" that the Madison Argus, which onjoys the profits of this "steal," justifies the action of the Secretary, while the Milwauken News, by its slience, , would seem to complye at it. The Secretary of State_it will be remembered, is a Domocrat, and these partisan organe, which are so loud-mouthed in denouncing each shadow of a Republican "steal," wink tile substantial Democratic Swindle.

To the Editor of the Janesville Standard:
DEAR Sta:—I sak the privilege of answering, through your columns, a communication published in the Milwanke Sentinet on the 2d inst., the dear of Error Filippen and beaded Under signed by Byron Kilbourn, and headed "Judge Smith and the Investigating Committee."

1t is not my object to arraign Mr. Kilbourn

for the means he reserved to in order to obtain the grant of land to the La Crosse Co., in 1858, to the means to reserve to in 1856, but simply to show by the best of ovidence, vix: bic own, that but little reliance can be placed upon any statements made by him oven under oath, and much less when they appear simply as a newspaper communication. For that purpose, I shall aim to contrast the evidence given by him, with statements communicated to the public through the medium of the press, relative to the part performed by him in obtaining the genet; I may, however, find it necessary in sustaining my object, to refer to some matter not connected with the substance of his communication to the Sentinet. I do this for the purpose of disabusing the public of any doubt, if any remain, as to the truth of the contents of his lotter in which he makes serious accountence against tor in which he makes serious accusations against

satisfactory reason for believing that those parties who represented our company, and who
were in daily intercourse with you, neither made
nor carried out any such arrangement, and that
no understanding of an improper or corrupt nature was over had by any party acting ou behalf
of our sompany, and that none such was ever

In support of these declarations, it is only necseary for me to advert to the fact, that the bill

Mr. Kilbourn is ovidently proud of his ability Mr. Kilbourn is evidently proud of his ability as a writer, and has become justly noted as accomplished in this respect. It will be a subject of regret, however, to his friends, that through his scribbling propensity he has been led to sacrifice truth and consistency, to the grace of composition. It would have been better for him if he had clothed the truth in a plainer gark, than to exhibit such outrageous inconsistencies and talseboods, in his sonorous and well-rounded sentances. I am very willing to Jeave

SLAYERY IN TEXAS.—There is serious danger of the utter defeat of Southern hopes and aspirations touching Texas, and that in the very heart of the South, in the region of all others best adapted to the successful cultivation of Southern products, and to the consequent remunerating employment of slave-labor, a feeling of partial employment of slave-labor; a feeling of settled opposition exists, which, if not counteracted, will ditimately pentralize the entire benefit conferred by the act of 1850, and to incorporate the largest linest, and most fertile part of Texas in-to the family of Free Stales.—New Orleans Bee. Slavery cannot exist forever upon this Conti-nent. It is as sure of extermination as the Slavery cannot exist forever upon this Connent. It is as sure of extermination as the Rights of Man are of universal acknowledgement. It may not be during the present generation, nor the next; but the day will come. The institution has already reached its enuminating point. The influence of the battle fought in Kansas will reach far beyond that Territory, It is already felt in Missouri. Emancipation is no remote ginia. The prolific soil of Texas has invited to its borders a vast population hostile to Slavery, and the propaganda may well be alarmed at the "signs of the times" in that section of the Union—acquired, at the cost of thousands of lives and millions of treasurer for the averaged will be averaged by the averaged

Some in the Supreme Court Room.—The Supreme Court, now in session, had appointed Messrs. Slosson, Dunning and Budsteed as examiners. All those gentlemen stand high in the legal profession, and displayed great ability and depth of learning in the law, as well as a disposition to ascertain thoroughly the qualifications of each candidate. By the Rules of the Revised Ucdo of New York State no prescribed time is required for preparation. Dirysicians' PRESCRIPTIONS and Tracts. A large and complete a scortment received and for saile by Drugglot, East Water Stront. The present class of candidates was subjected to a most rigorous examination through all the dry and tedious details of American law, and on the Statutes and Code of New York.

The dryness and duliness of the cocasion was frequently relieved by the apt reply of some sharp candidate to a puzzling question. For in state, one young man was asked by the examiner "What is a married woman in the eyes of the law?" O Senna, received and for sale by HENRY PESS, Ja., Druggist.

The funture of the week has been an extreme duliness outside transactions. The somewhat free arrivals of heat, and the immediate shipment, has created considrable activity through regular channels, and we notice a general improvement of feeling, with pleasure. We see 104,678 person, now, why we should not look for further hanges for the better.

The "Mortgage Stay haw," which is in everybody's

mouth, still operates to keep money out of everybody's pocket. At the same time it is getting so covered up by citicule and execution, that it will be to all intents and purposed soon lost sight of. We repeat our emphatic opinion, that its repeal is as incritable, as its enactment was the delend-and any man who avails himself of ile provisions to avoid the prompt payment of an honest debt, will do himself an injury that more time; than he aved will be required to wash away. We say to Capitalists, you need not fear the effect of this law more than that of a usury law. They are both unsound and foolish, and are both practically nullities.

Considerable amounts continue to offer for the purchase of good, short paper, but, as above intimated, with out a corresponding supply. Rates are unchanged—say

Land Warrants are dull for the moment, but recent en actments, permitting their location on "Rail Road Lands, belonging to Government, together with a fair demand for them in other stations, maintains their price.
